MATH FACT COLOR & WRITE BY CODE

ADDITION & SUBTRACTION

Made By: Saddle Up for 2nd Grade ©2021

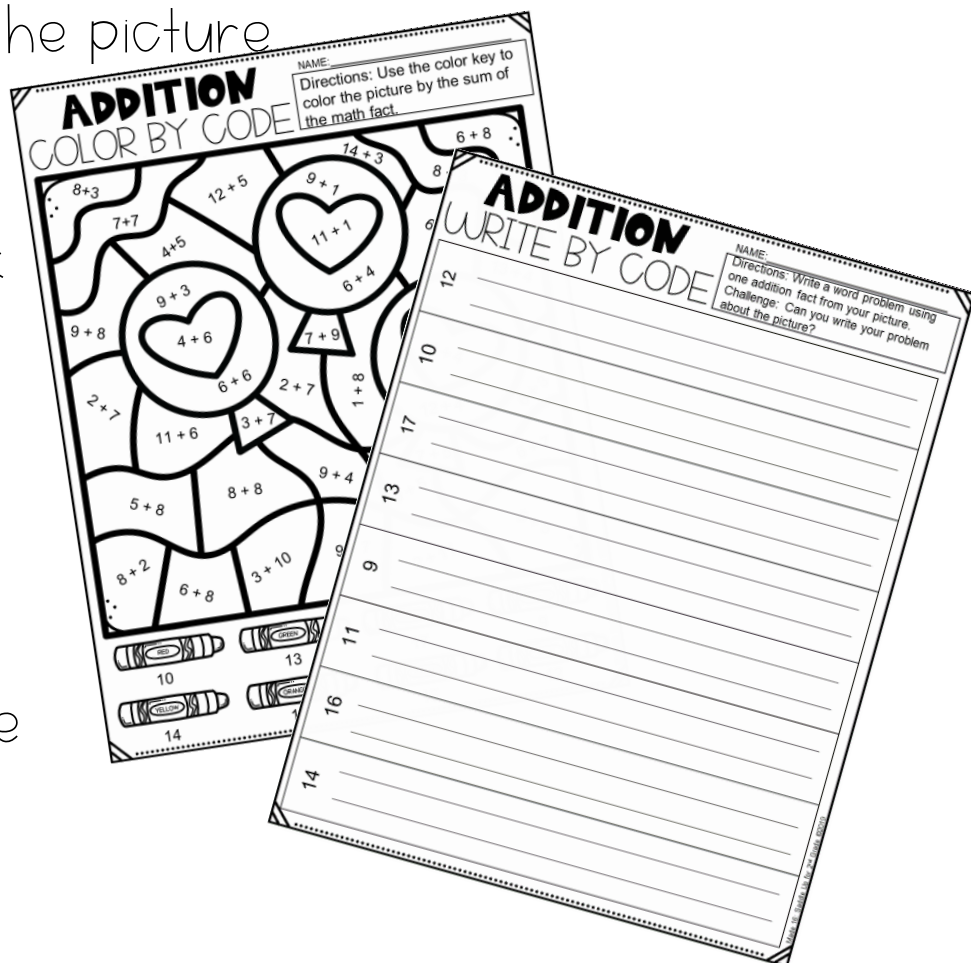

HOW TO USE

This color by code resource allows your students to practice math fact fluency and problem solving. There are 7 addition pages and 7 subtraction pages. There are different levels for easy differentiation.

Copy the color by code and write by code pages front to back. You can use the color pages as an activity or extend it with the word problems on the back. They must write word problems using a number sentence found in the picture. To challenge them, have them write their sentence about the picture.

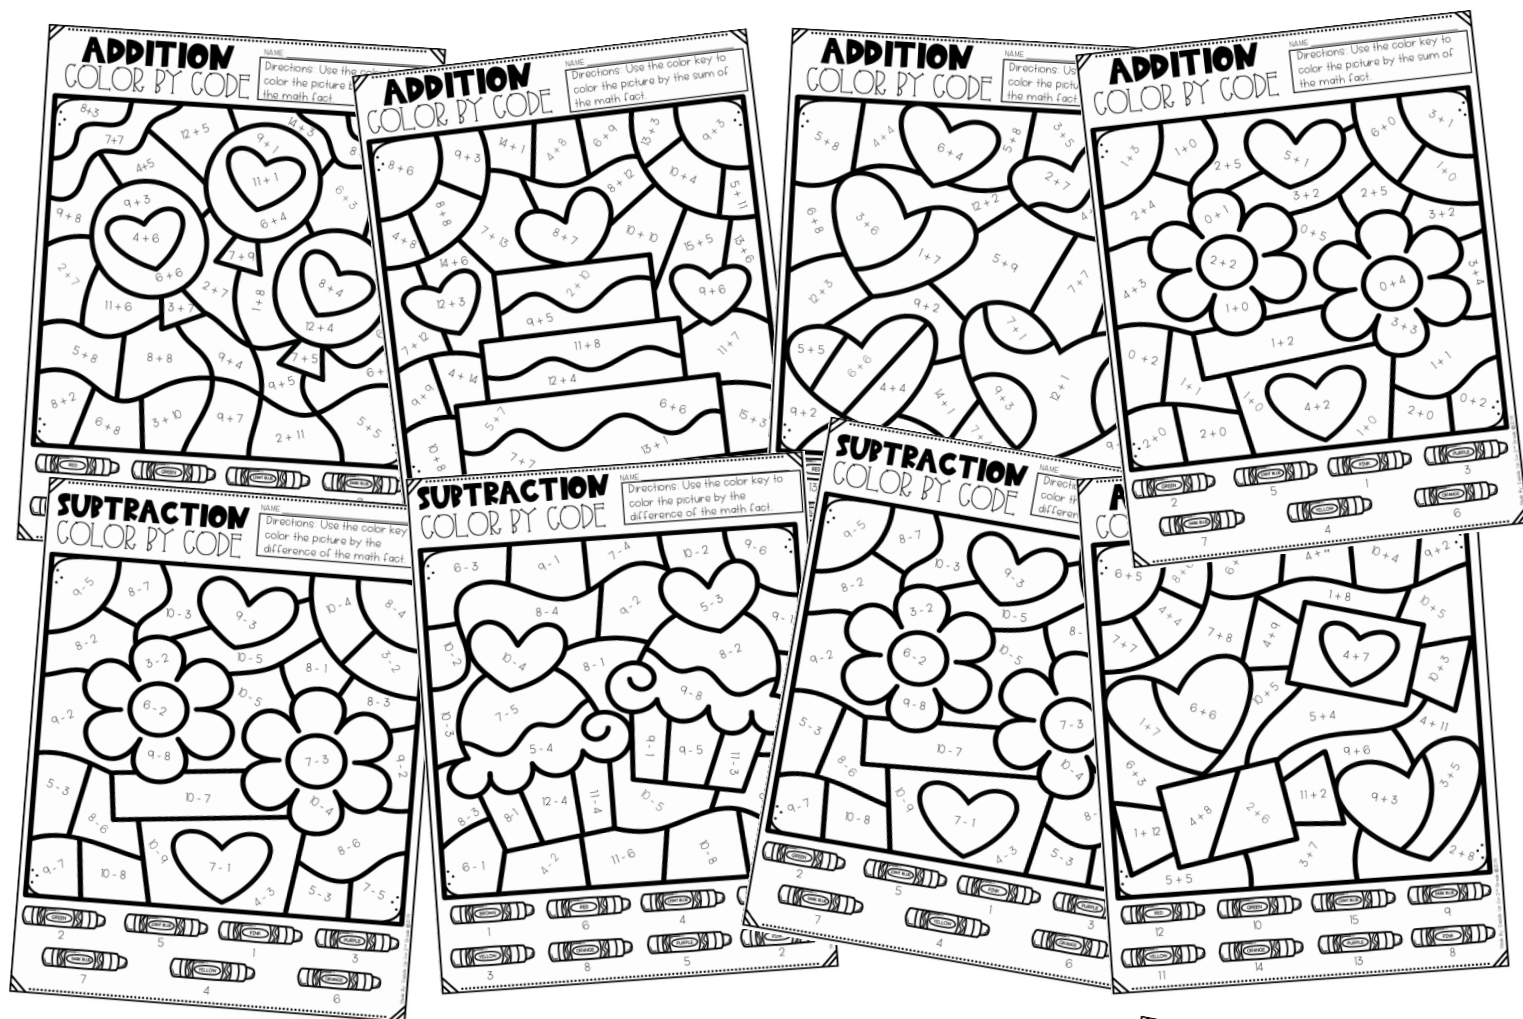

Ways to use:

- early finisher work
- Math stations
- morning work
- indoor recess
- sub tub activities
- ELL activities
- homework practice

ADDITION & SUBTRACTION

to and from 20

each color by code has
a correlating write by
code page.

IMPORTANT INFO

If you own the January set, you know that a digital version was included. The clip artist that I use just started releasing progression color by code sets. Once February is released, we will get a digital version made as soon as we can.

Thank you for your support,
Marcy
