## MATH FACT COLOR & WRITE BY CODE

# ADDITION & SUBTRACTION

Made By: Saddle Up for 2<sup>nd</sup> Grade ©2021

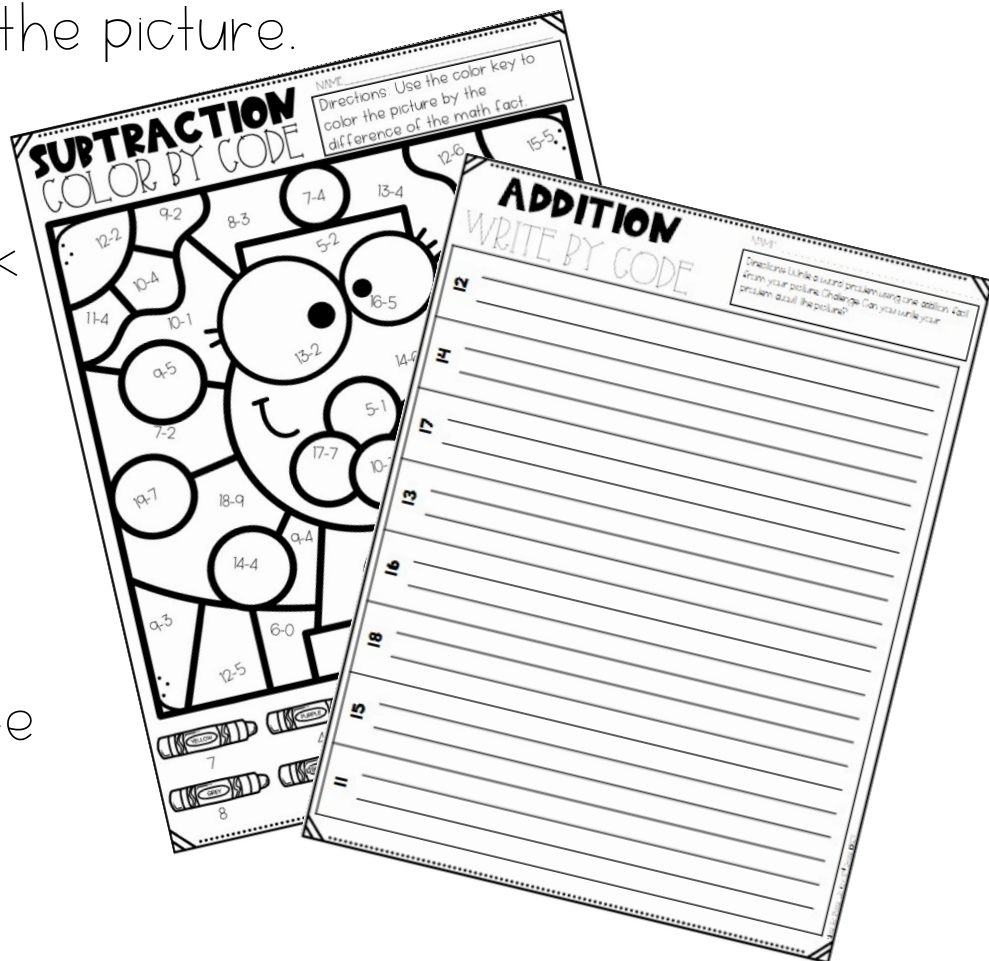

# HOW TO USE

This color by code resource allows your students to practice math fact fluency and problem solving. There are 7 addition pages and 7 subtraction pages. There are different levels for easy differentiation.

Copy the color by code and write by code pages front to back. You can use the color pages as an activity or extend it with the word problems on the back. They must write word problems using a number sentence found in the picture. To challenge them, have them write their sentence about the picture.

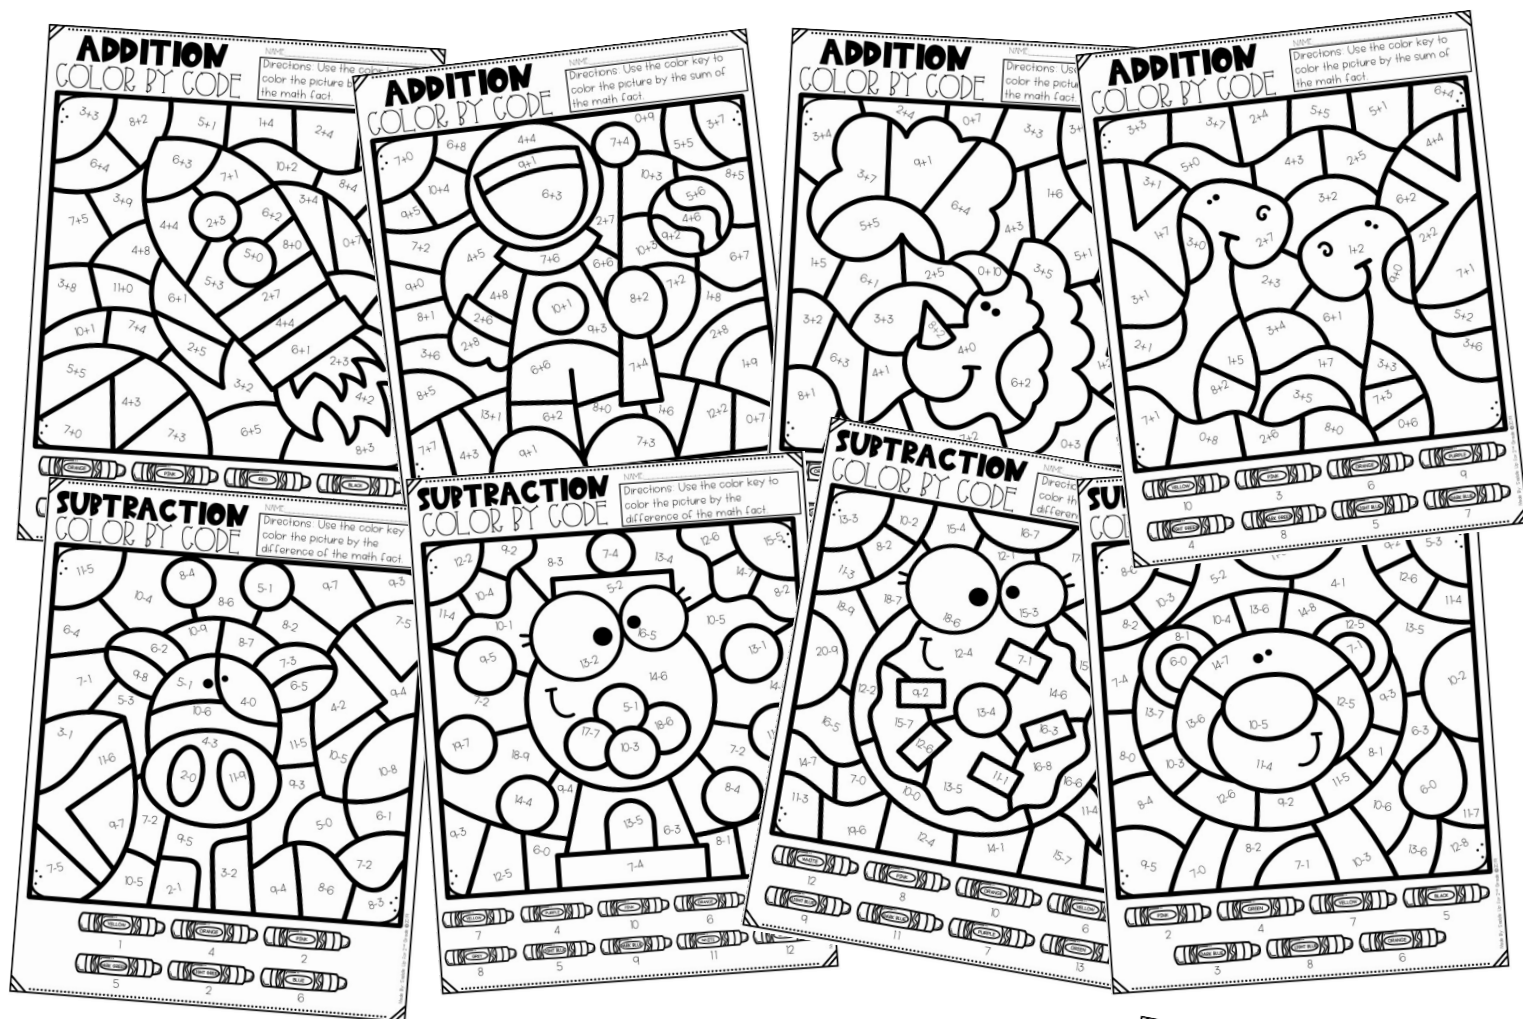

Ways to use:

- early finisher work
- Math stations
- morning work
- indoor recess
- sub tub activities
- ELL activities
- homework practice

# ADDITION & SUBTRACTION

to and from 20

each color by code has  
a correlating write by  
code page.

ADDITION WRITE BY CODE		SUBTRACTION WRITE BY CODE	
12		2	
10		1	
17		3	
13		7	
9		4	
11		6	
16			
14			

# IMPORTANT INFO

If you own any of the previous sets, you know that a digital version was included.

The clip artist that I use just started releasing progression color by code sets. We are currently working on the May set and will get it to you ASAP.

Thank you for your support,  
Marcy
