

NOVEMBER

Math Color & Write By Code

Addition and Subtraction

HOW TO USE

This color by code resource allows your students to practice math fact fluency and problem solving. There are 7 addition pages and 7 subtraction pages. There are different levels for easy differentiation.

Copy the color by code and write by code pages front to back. You can use the color pages as an activity or extend it with the word problems on the back. They must write word problems using a number sentence found in the picture. To challenge them, have them write their sentence about the picture.

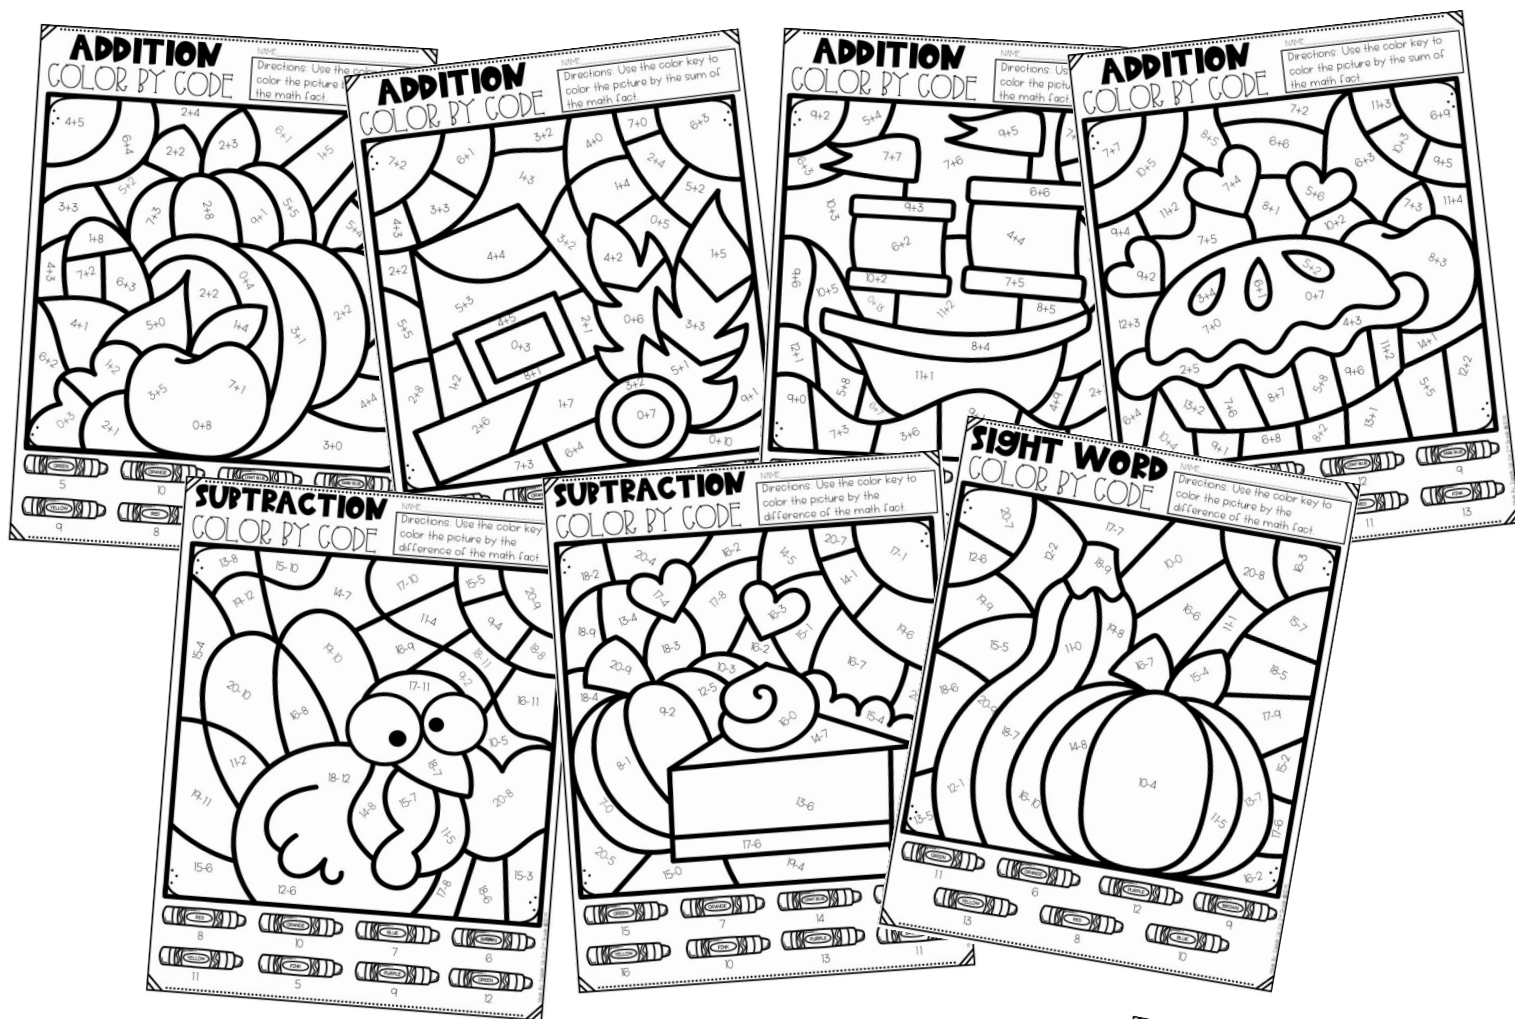

Ways to use:

- early finisher work
- Math stations
- morning work
- indoor recess
- sub tub activities
- ELL activities
- homework practice

ADDITION & SUBTRACTION

to and from 20

each color by code has
a correlating write by
code page.
